1. No building permits shall be issued for construction on the property until complete and detailed site development plan and architectural plans of the proposed development have been approved by the City Plan Commission of the City of El Paso.

Condition #1 will be satisfied by this detailed site development plan application.

2. No certificates of occupancy and compliance shall be issued by the City for any buildings constructed on the property until First Party has, at no cost to the City, installed concrete sidewalks along the boundaries of the property adjacent to Fred Wilson Road and Copia Street. Such sidewalks shall be installed in accordance with specifications to be approved by the City Engineer of the City of El Paso and the City Engineer must certify that such sidewalks have been satisfactorily installed before certificates of occupancy and compliance shall be issued.

Condition #2 will be satisfied once the sidewalk and R.O.W. is dedicated at the platting stage prior to the issuance of building permits.

Condition #3 has been satisfied as Resolution approved the amended condition, on June 17, 2007, stated "Vehicular ingress and egress to the property be provided off of Fred Wilson from the vacated location of Copia Street".

On June 17, 2008, the subject property was rezoned from A-O/sc (Apartment/Office/special contract) to C-1/sc/c (Commercial/special contract/conditions and A-2 (Apartment) to C-1/c (Commercial/conditions) with the following conditions imposed by Ordinance No. 16918 (Attachment 5):

Condition #2 has been satisfied.

On July 15, 2014, the subject property was rezoned from R-4 (Residential) and A-2 (Apartment) to C-1/c (Commercial/condition) with the following condition imposed by Ordinance No. 18204 (Attachment 6):

That design of the Alabama Street ingress/egress access be reviewed and approved by the City Traffic Engineer prior to the issuance of any permits for any proposed driveway on Alabama Street frontage.

The condition is not applicable as the proposed access is from Fred Wilson Boulevard.

Staff recommendations shall not require that the site plan have landscaping in excess of what is required under the city code or any zoning condition.

If the zoning administrator does not approve an applicant's detailed site development plan, the applicant may appeal the decision to the city plan commission. The applicant must file the appeal with the zoning administrator within fifteen business days from the date of the zoning administrator's decision. The zoning administrator shall place the appeal on the city plan commission agenda to be heard by the commission within thirty business days from the date the appeal was received. The zoning administrator shall include the detailed site plan, the appeal, and a summary of the zoning administrator's reasons for disapproving the detailed site plan.

Note: the detailed site development plan review is not eligible for administrative approval, due to a condition imposed on the subject property which requires review by City Plan Commission.

D. City plan commission approval. Pursuant to this Code, the city plan commission, in addition to the powers and duties identified in this chapter, shall have final authority on approval of all other detailed site development plans, unless a zoning condition, contract provision, other city code provision or state law require the detailed site development plan to be approved by city council.

1. The planning division shall make its recommendations to the city plan commission within thirty days after a complete application is submitted.
2. The city plan commission shall hold a public hearing at its regular meeting that is within thirty days from receipt of department recommendations.
3. The commission shall consider the following information when approving a proposed detailed site development plan: the boundaries of the tract proposed for development; location and arrangement of structures; determine if the use conforms to applicable zoning regulations, determine if historic landmark commission approval has been granted for

architectural design of all structures if located in a historic district and the design conforms to such approval; location of utility rights-of-way and easements and stormwater drainage; vehicular and pedestrian ways; on-site parking areas; location of open spaces and landscape planted areas.

4. In no instance shall the city plan commission have authority to vary the yard standards applicable to the district.

Plan El Paso- Future Land Use Map Designation

All applications for detailed site plan review shall demonstrate compliance with the following criteria:

G-2 – Traditional Neighborhood (Walkable): This sector includes the remainder of central El Paso as it existed through World War II. Blocks are small and usually have rear alleys; buildings directly faced streets; schools, parks, and small shops are integrated with residential areas. This sector is well-suited for use of the SmartCode as a replacement for current zoning when planned in conjunction with specific neighborhood plans or identified in this Comprehensive Plan.

The purpose of the C-1 (Commercial) district is to serve the needs of surrounding residential neighborhoods by providing compatible neighborhood convenience goods and services that serve day-to-day needs. The regulations of the districts will permit location of business and professional offices and retail category uses within adjacent residential areas of medium and high densities.
